Station Rehabilitation at the 183 St station

Here's what we're doing:

- Redesign the area around the station booth so it's easier to reach the trains
- Install new canopies over the stairs and platforms
- Make major structural repairs to platforms, columns, and track area
- Rehabilitate stairs and railings between street and platform
- Renew the mezzanine and platform floors
- Replace platform edges and ADA tactile warning strips
- Install new electrical work and vandal-resistant fluorescent lighting
- Repair walls and paint station and track area
- Install a new and high-quality public address system

Closing the station in both directions assures completion of the work in the shortest amount of time.
